Jean-Noël Thépaut

Director Copernicus Services, ECMWF

Copernicus

What are Copernicus Services @ECMWF?

Atmosphere
Monitoring Service

atmosphere.copernicus.eu

Climate
Change Service

climate.copernicus.eu

The **Copernicus Atmosphere Monitoring Service (CAMS)** provides consistent and quality-controlled information related to air pollution and health, solar energy, greenhouse gases and climate forcing, everywhere in the world.

The **Copernicus Climate Change Service (C3S)** supports society by providing authoritative information about the past, present and future climate in Europe and the rest of the World.

Copernicus@ECMWF: Building on synergies and combining efforts to provide two world class operational Services.

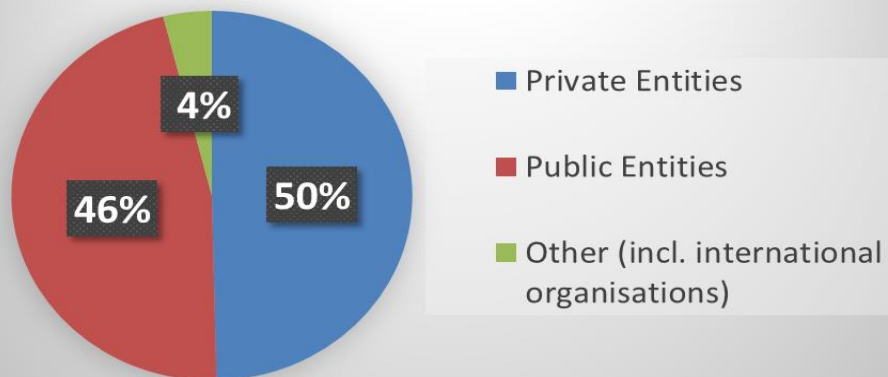

Copernicus

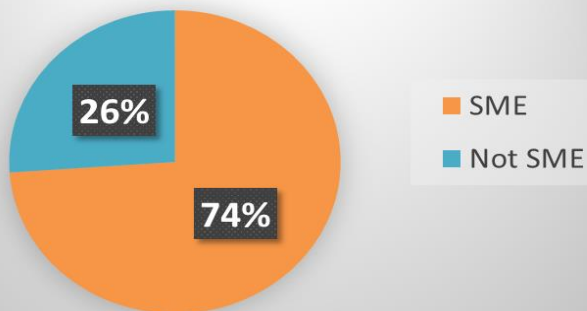

Entities contributing to C3S and CAMS

- > 120 ITTs carried out
- 381 different entities from **32 European countries**

Type of (sub-)contractors

Private (sub-)contractors

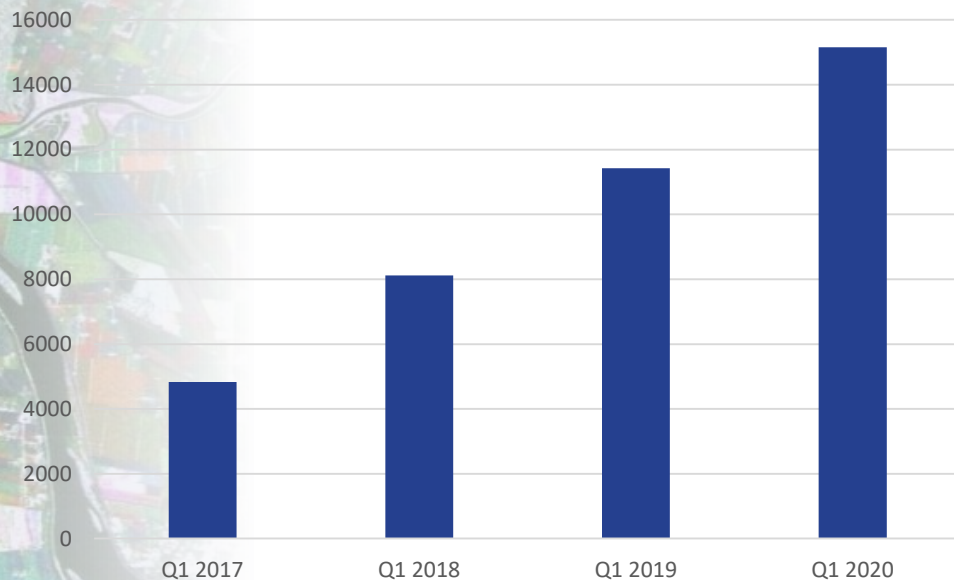

Copernicus

Number of C3S and CAMS users

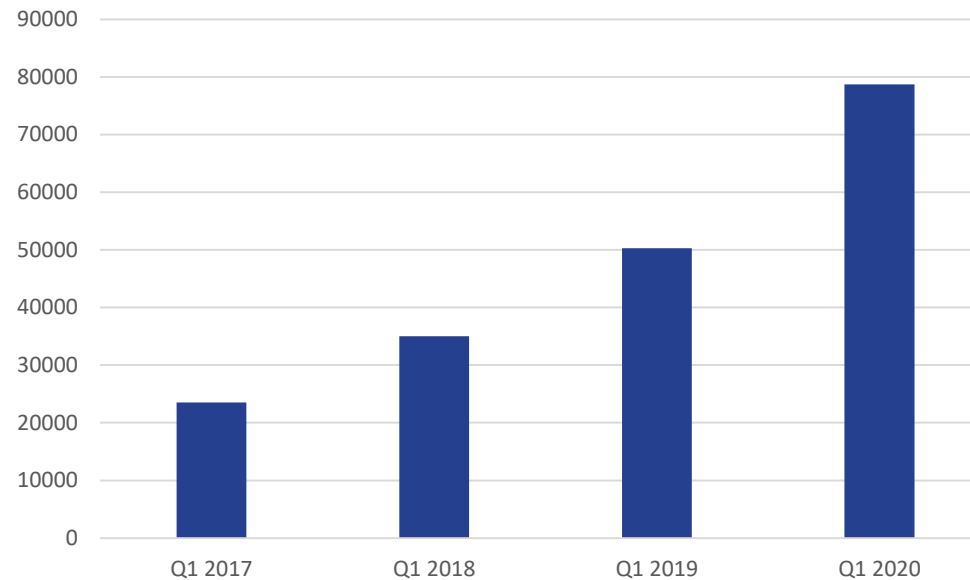

CAMS: 214% increase from Q1 2017 to Q1 2020

CAMS total users

C3S: 235% increase from Q1 2017 to Q1 2020

C3S total users
