

## **Annex 2: Preliminary agenda for the Greenhouse Gas parallel session**

Remark by Peter Rayner: 'This is a first cut at an agenda for the GHG breakout. The major change from the Kick-off meeting is a session dedicated to external but related activities. Since I've probably forgotten some of these., partners should feel free to suggest other activities, along with any other changes.

### **Tuesday Afternoon: Progress reports**

Reports and highlights from Activity Leaders. The names listed are the activity leaders but they should feel free to divide or deputise the presentations..

13:45 Introduction, Rayner  
13:50 WP1: Engelen/Serrar  
14:20 WP2: Chedin  
14:40 WP3 Heimann  
15:00 WP4 Chevallier  
15:20 break  
15:40 WP6 Best  
16:00 WP8 Bergamaschi  
16:20 Issues arising

### **Wednesday Morning: Related science developments**

Morning session dedicated to other relevant activities and links within GEMS

09:00 OCO/GOSAT update Rayner  
09:20 Sciamachy update by Burrows or A.N.Other  
09:40 Evergreen summary Bergamaschi  
10:00 NACP and other US activities Denning  
10:30 break  
10:50 CarboEurope and related activities Heimann | Rayner  
11:00 GeoLand (if possible)  
11:10 Links to other GEMS projects, CO2 sources from oxidation, fire emissions, model validation etc  
11:40 Issues arising  
12:30 lunch
