

Quality control of ocean T and S profiles for ENSEMBLES

Bruce Ingleby

Bruce.ingleby@metoffice.gov.uk

For ENSEMBLES meeting 8-9 June 2006 Reading

- June 2005: “EN2” version available, 1956-2004, via <ec:/fp1/EN2/v1a> or www.hadobs.org
- May 2006: WOD05 released after delays – delayed start of work on “EN3”
- August 2006: “EN3” version of quality controlled data available via ecfs

Plans for EN3

- WOD05 (World Ocean Database 2005) – from NODC
 - Bulk of data
- ARGO data from GDAC
 - Use salinity bias corrections where available
 - Use in preference to WOD05
- GTSPP for recent years
- Process 1950-2005
- Climatology from EN2 1971-2000 – some smoothing of monthly fields
- Minor improvements to QC
- Data format NetCDF as before (include T as well as potential temperature?)
